Bountiful, UT 84010

2022-2023 TUITION & FEES

While maintaining fiscal responsibility, our primary goal is to make our school a reality for all interested families. Please do not let financial constraints keep your family from joining our community. We will work with you. Tuition is payable through FACTs, a third party company that facilitates both family Payment Plans and our Tuition Reduction Program. Set up or log into [FACTs](#). Tuition Payment Plans do not require any income or tax information documents.

TUITION ASSISTANCE:

FACTs: In order to receive reduced tuition, families must apply through [FACTs Tuition Assistance](#) by April 15, 2022. Families must reapply each year. Income information for **both** parents is required. If you have children in other Catholic schools, only one application is required and tuition is coordinated between schools.

In addition to FACTs, the following scholarships, tax breaks, and assistance are available to help defer tuition costs. All of the links to applications and more information can be found on our website www.stolafs.org > **Admissions > Tuition Assistance:**

[Pastor's Promise](#) or **[Programa Pastor's Promise:](#)** A one-year introductory scholarship (60% OFF) for Catholic families trying for the first time, or returning to Catholic Education.

[Richard & Catherine Gourde Scholarship:](#) Richard and Catherine Gourde sent all of their 11 children to Saint Olaf Catholic School starting on opening day in September 1960 into the early 1990's. Their dedication and testimony to the value of Catholic Education and Faith led to the creation of this need-based scholarship. Catholic families applying for FACT's are encouraged to apply. The Gourde Family wishes that every child would have access to Catholic Education, especially at Saint Olaf Catholic School where their family lived, learned and served.

[Skaggs Tuition Assistance:](#) This is a grant given to the school to help offset significantly reduced tuition for families and is income based. The school will notify families of eligibility and will request the required forms be completed. The Skaggs Scholarship is one way Utah Catholic Schools ensure all students have access to a Catholic education. Contact the school office for more information.

[Carson Smith Scholarship:](#) The Carson Smith Special Needs Scholarship Program (CSS) is a parent choice model for Utah residents that provides tuition assistance for eligible special needs students enrolled in eligible private schools. The scholarship is for students who would qualify for special education and related services in public schools. Check sources for details.

[Children's First Utah \(HB4003\) Program:](#) A brand new Special Needs Program allowing parents/families even more flexibility with scholarship funds to apply toward ensuring the best education for their student. This legislation establishes a \$6 million tax-credit scholarship account program for families to pay for private school tuition, educational therapies, tutoring, online learning, textbooks and other education-related services.

[My 529 Savings Plan:](#) A qualified tuition program (QTP), also referred to as a section 529 plan, is a program established and maintained by a state, or an agency or instrumentality of a state, that allows a contributor either to prepay a beneficiary's qualified education expenses at an eligible educational institution or to contribute to an account for paying those expenses. Contact a financial planner for further details. Qualified higher education expenses include tuition expenses in connection with a designated beneficiary's enrollment or attendance at an elementary or secondary public, private, or religious school, i.e. kindergarten through grade 12, up to a total amount of \$10,000 per year from all of the designated beneficiary's QTPs.

[Child & Dependent Care Tax Credit:](#) Federal tax credits that you may be able to claim the child and dependent care credit if you paid expenses for the care of a qualifying individual to enable you (and your spouse, if filing a joint return) to work or actively look for work. Generally, you may not take this credit if your filing status is married filing separately. However, see What's Your Filing Status? in [Publication 503, Child and Dependent Care Expenses](#), which describes an exception for certain taxpayers living apart from their spouse and meeting other requirements. The amount of the credit is a percentage of the amount of work-related expenses you paid to a care provider for the care of a qualifying individual. The percentage depends on your adjusted gross income.
